

## **TUSDM Standing Committees FY19-20**

### **1. Admissions Committee**

**MISSION:** The Admissions Committee will have responsibility for the development and implementation of all policies and procedures related to predoctoral admissions. The Committee will meet regularly during the year to evaluate and review candidates in the applicant pool presented by the Admissions Office for acceptance into the D.M.D. program. Committee members will interview candidates and must sign an annual Conflict of Interest Agreement and a Confidentiality Agreement.

## 2. Advanced and Graduate Education Committee

**MISSION:** The Advanced and Graduate Education Committee (AGEC) will have responsibility for the development and implementation of Advanced and Graduate Education programs and for curriculum and research leading to the degree of Master of Science with a major in Dental Science. The Committee will coordinate, organize, and evaluate interdepartmental postgraduate level courses necessary for specialty certification and such other postgraduate clinical training programs that the School may offer. The Committee will assist the program directors in developing the didactic and clinical curriculum for their respective specialty programs and will have overall responsibility for coordinating the schedules of the graduate studies and advanced education curricula to be compatible in achieving programs of the highest caliber. The AGECE will monitor students' academic and clinical progress and recommend candidates for the award of the Master of Science degree and for certificates of achievement to the Executive Faculty.

## 4. Compliance Committee

**MISSION:** The Compliance Committee will have responsibility for development and implementation of all policies and procedures related to ensuring the School is compliant with all applicable federal, state, and local laws and regulations. Areas of concern include but are not limited to compliance with U.S. Department of Health and Human Services Centers for Medicare and Medicaid Services and HIPAA Patient Privacy and Information Security regulations, the Massachusetts Department of Public Health clinic licensure regulations, and the Massachusetts Board of Registration in Dentistry regulations. Policies mandated by regulatory authorities that are recommended by the Compliance Committee may be formally approved and adopted by the TUSDM Dean. The Compliance Committee is authorized to establish a subcommittee to serve as a review board for potential faculty violations of policies in cooperation with appropriate School and University offices and committees; and specifically, to act as a designated sanctions entity for violations of patient privacy and information security under the Health Insurance Portability and Accountability Act (HIPAA). Said subcommittee will not act as a review panel for faculty grievances.

## 7. Ethics, Professionalism, and Citizenship Committee

**MISSION:** The Ethics, Professionalism, and Citizenship Committee (EPC) will have responsibility for the development and implementation of policies and procedures to actively promote ethical and professional behavior and citizenship among the School's predoctoral and postgraduate student communities. The EPC will review all issues related to academic, professional, and ethical misconduct of predoctoral students; monitor compliance with the School's Standards for Professional and Ethical Conduct; review all specific instances of alleged unethical or unprofessional behavior; and impose sanctions if professional misconduct or ethical violations are confirmed. A Postgraduate Ethics, Professionalism, and Citizenship (PGEPC) Subcommittee of the EPC will have responsibility for the development and implementation of policies and procedures to actively promote ethical and professional behavior and citizenship among the School's postgraduate student community. The PGEPC will review all issues related to academic, professional, and ethical misconduct of postgraduate students; review all specific instances of alleged unethical or unprofessional behavior; and impose sanctions if professional misconduct or ethical violations are confirmed.

## 11. Risk Management, Safety, and Infection Control Committee

**MISSION:** The Risk Management, Safety and Infection Control Committee will have responsibility for the development and implementation of all policies and procedures related to keeping the School community free from recognized hazards and infection risks and in compliance with federal, state, and local regulations governing workplace and patient safety. The Committee will cooperate with the University Environmental Health and Safety Office to develop, document, and communicate a Risk Management, Safety and Infection Control program that educates and protects students, faculty, staff, and patients from recognized hazards and infection risks. The Committee also will identify and approve infection control products and devices, monitors infection control compliance in the clinical areas, and publish Protocols and Procedures for Infection Control (TUSDM Infection Control Manual).

## TUSDM Management Committees

### 13. Technology Committee

**MISSION:** The Technology Committee will have responsibility for the development and implementation of policies and procedures that ensure all technologies introduced and used in the School meet all operational, financial and technological requirements in a fiscally sound, sustainable and responsible manner. The Committee will be responsible for determining the feasibility of introducing new technologies into the School environment (patient care, education, and research); monitoring and updating the ongoing status of all items identified on the technology planning list; and reporting on project status and communicate technological advances to the Executive Faculty. Committee members must sign an annual Conflict of Interest Agreement.

## 14. Continuing Education Committee

**MISSION:** The Continuing Education Committee is dedicated to providing patient-centered and clinical-based education for the lifelong learning needs of dental professionals. We strive to develop educational programs that address different patient populations, dental specialties, advancing technologies, and varied practice settings. We create and coordinate programs that incorporate all types of educational methodologies, quality training, and the highest standards of oral health care by utilizing a comprehensive and multidisciplinary approach.

Goals of the CE committee are to promote and encourage lifelong education for the dental professional beyond graduation and/or certification, by presenting outstanding programs by recognized clinicians and educators who have demonstrated expertise in their respective fields of endeavor

- To disseminate new information on advancing technology and procedures, for practical application by the dental professional
- To encourage and assist the dental professional to achieve higher levels of skills, knowledge, and competence
- To provide continuing education programs that enable participants to provide an improved level of care to their patients and their community

## 16. Postgraduate Clinic Management Group (PGCMG)

**MISSION:** The Postgraduate Clinic Management Group serves as an informational board to the Clinic Steering Committee. Examples of issues addressed that require group discussion: 1) How accuracy in billing and record keeping allows for efficient management of patient treatment and documentation. 2) Patient management to reduce risk to the school. 3) Scheduling issues. 4) Dissemination of information for the clinical Deans. 5) Discussing mechanisms of redos, refunds etc. The PGCMG committee is important for information sharing and reinforcing policies that keep the PG clinics operating well. All members are non-voting members and the staff are there as liaison with the Program Directors/Chairs to discuss issues with the PG clinic operations.

## 17. Implant Committee

**MISSION:** To advance the science and practice of dental implants at the school and overseeing all implant-related activity, grants and gifts. Membership includes representation from DMD, specialties, clinical administration, and corporate and foundation relations. The Committee meets every month, or more often if needed. The goals and scope of the Committee are as follows:

- To regulate and coordinate academic and clinical activities related to Implant Dentistry
- To sustain existing academic and corporate partnerships
- To identify new academic and corporate partnerships
- To develop broad, collective patient care guidelines or algorithms for TUSDM
- To map and quantify all implant related inventory and activity in TUSDM (and affiliated facilities)
- To maintain good stewardship and accountability for all grants
